Developing a Flight Delay Prediction Model using Machine Learning

TEAM LEADER - Dasari Bhhumika - 195002027
MEMBER 1 - Aravintaraj S - 195002012
MEMBER 2 - Dinesh S - 195002033
MEMBER 3 - Manoj R - 195002071

Project Objectives:
• You'll be able to understand the problem to classify if it is a regression or a classification kind of problem.
• You will be able to know how to pre-process/clean the data using different data pre-processing techniques.
• You will be able to analyze or get insights into data through visualization.
• Applying different algorithms according to the dataset and based on visualization.
• You will be able to know how to build a web application using the Flask framework.
